**Subject:** Re: Parkersburg Ames Warehouse - air analytical not loaded yet

Hello Lora,

The consultant was going to narrow the list based on results. PM were the only ones with detections when I reviewed the data yesterday so that's probably why.

K

Just FYI- I don't see any other detects in field monitoring today, just PM (see screenshot).

I see a spot on website for analytical (39 minicans; SO2; PAHs / 35 field samples 4 blanks collected on 10/23) but results aren't loaded yet unless I am missing that somewhere. Lora
